Professional Summary

An ambitious and detail-oriented Software Engineering undergraduate with a strong foundation in programming, object-oriented design, and hardware-software integration. Proven ability to deliver functional academic projects, ranging from IoT solutions to interactive web applications. Highly organized and collaborative, bringing strong time management, leadership capabilities, and a commitment to writing clean, maintainable code. Seeking an internship or associate software engineering opportunity to contribute to real-world development pipelines while expanding technical expertise.

Education

B.Sc. (Hons) in Software Engineering (Undergraduate - 2nd Year)

National Institute of Business Management (NIBM), Colombo

- **Expected Graduation:** 2028
- **Key Focus Areas:** Software Architecture, Advanced OOP, Database Management Systems, Web Development.

Diploma in Software Engineering

National Institute of Business Management (NIBM), Colombo

- **Completed:** 2025
- **Key Achievements:** Completed major course projects covering system analysis, database design, and object-oriented implementation.

G.C.E. Advanced Level (A/L) — 2023

Prince of Wales College, Moratuwa

- **Results:** Information Technology (IT): **B** | Physics: **S** | Combined Mathematics: **W**

G.C.E. Ordinary Level (O/L) — 2020

Prince of Wales College, Moratuwa

- **Results:** Obtained 3 A's, 3 B's, and 3 C's
- **Core Subjects:** Mathematics: **A** | Science: **A** | ICT: **A** | English: **B** | Commerce: **B** | Music: **B** |

Sinhala: C | History: C | Buddhism: C

Technical Projects

Smart Prison Management System (IoT)

Hardware/Software Integration Project (Diploma)

- Developed an IoT-based monitoring system using **Arduino** and **C++** to enhance correctional facility safety.
- Programmed microcontroller sensors to collect and transmit real-time environment data, streamlining remote monitoring processes.
- Applied critical thinking to design secure logic constraints, ensuring robust communication between hardware modules.

Agriculture Farm Management System

Desktop Application Development Project (Diploma)

- Designed and built a comprehensive management software system using **Java** to streamline daily agricultural operations.
- Implemented Object-Oriented Programming (OOP) principles to create scalable modules for crop tracking, resource management, and scheduling.
- Constructed an intuitive user interface ensuring non-technical farm operators could easily navigate the system.

Online Bookshop Website

Frontend Web Development Project (Diploma)

- Created a responsive, modern e-commerce web application for a bookshop utilizing **HTML5**, **CSS3**, and **JavaScript**.
- Designed clean, user-centric interfaces and intuitive navigation paths to optimize the book browsing and purchasing journey.
- Ensured cross-browser compatibility and responsive performance across mobile, tablet, and desktop viewports.

Technical Skills & Tools

- **Programming Languages:** Java, JavaScript, C++, HTML5, CSS3
- **IoT & Embedded Systems:** Arduino IDE, Microcontroller Programming, Hardware-Software Integration
- **Design & Creative Tools:** Adobe Photoshop, Adobe Illustrator, Adobe Premiere Pro
- **Office & Productivity:** Microsoft Office Suite (Word, Excel, PowerPoint)
- **Methodologies & Concepts:** Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), UI/UX Basics

Key Soft Skills

- **Organization & Time Management:** Successfully balanced academic research, technical projects, and design work under tight deadlines.
- **Collaboration & Leadership:** Experienced in coordinating with student teams, driving project deadlines, and guiding group initiatives.
- **Communication & Client Management:** Skilled at active listening and translating complex requirements into simple, functional software solutions.
- **Languages:** Sinhala (Native), English (Conversational/Professional)

Non-Technical Creative Experience

Alongside my technical studies, I maintain a strong interest in digital media, utilizing tools like **Premiere Pro**, **Photoshop**, and **Illustrator** to produce multimedia content, design visual layouts, and edit video projects. This creative background gives me a unique perspective on user interface (UI) and user experience (UX) design, allowing me to build applications that are as visually engaging as they are technically sound.
